Supplies: *Dwelling Dairy Shop/Barn Irrigation Industrial*
Public Water System Not used

Casing material: *PVC Steel* Casing diameter: _____ inches

Plot Plan: *Attached to new well application Attached to this document*

Other identifying feature(s): _____

Statement of Intent

In accordance with Merced County Code, Chapter 9.28, it is my intent to take the action indicated by the box checked below, regarding the well described above:

- Destroy the existing well, under permit, when the new well is drilled or when it is put into service.
- Continue use of the existing well (working pump and permanent power source).
- Have the well out of service for up to one year. By that time the well will be destroyed under permit or restored to service under permit. The well will be maintained and restored or destroyed in accordance with Chapter 9.28.
