What is Psychosocial Rehabilitation?

- A course of study that better prepares front line staff to deliver recovery oriented services.
- Promotes and supports the development of community based systems of services that provide choices for consumers based upon the promise of growth and recovery.

Basic skills and knowledge necessary for an entry level psychosocial rehabilitation practitioner are covered in 5 training modules. Certification is available for each module.

- **Introduction to Psychosocial Rehabilitation** – Beginning January 21, 2020
- The Helping Relationship
- Rehabilitation and Recovery
- Community Integration
- Fieldwork Seminar

WELLNESS • RECOVERY • RESILIENCE
